

Survey for All Patients at Well-Child Visits

In our office, we are interested in discussing the aspects of a healthy lifestyle with all our patients. While you are waiting to see the doctor, it would be helpful if you would please take a moment with your child to answer the following questions and we will review the answers during your visit. We realize how difficult it is to do all the right things all the time and recognize the questions below only reflect a small portion of the challenges that face us every day.
